

Public Comments **Fountain Basin Art Project**

- Valerie Theberge's design is the liveliest & most colorful. It would be a fun addition to RTS.
- Wow-they are all awesome. I like that the artists are all local. Can we have all three? First Choice- Valerie Theberge 2nd Geckos
- I like Valerie Theberge's the best! Saunder #2 Fitzgerald #3
- I love the fountain proposal by Valerie Theberge. My only comment is that I would prefer that it incorporate the colors of our Rockville flag & MC/State flags- just a splash of tiles here and there. Thank you.
- I like Valerie Theberge design best
- The fountain designed by Valerie Theberge is awesome! Absolutely gorgeous colors, shapes, & functionality. Please, let's build it!!
- Order of preference 1- Valerie Theberge 2- Bonnie Fitzgerald 3- Deirdre Saunder
- I like all of them but my favorite is from artist Valerie Theberge. The metallic tiles will reflect the sunlight and sparkle.
- Valerie's Theberge's piece is classy, attractive and will fit into the Town Square space perfectly. Two other pieces are nice, but I recommend the Theberge's piece.
- Valerie Theberge's design speaks well to the project's idea. I think her use of organic colors will comfort and her interconnected patterns will intrigue. This is a great choice for the project.
- I like the Saunder version but it may be hard keeping tiles on the top of the fountain
- I like the fountain "family life" is dynamic, colorful and easy to spot from far. I wish the artist could incorporate some of the elements (color) from Ms. Theberge piece- specially the gold and turquoise. (I like the multishades on these.)
- All three are beautiful, however Deirdre Saunders's touches me with her explanation of the Gekko & "renewal" or new life. We are all evolving & at times need or understand that meaning.
- I like D. Saunder a lot, but I think the Cultural Arts Commission made the right selection.

- Saunder's design is lovely but she needs to use a fish or amphibian- some of which are fabulous- rather than a reptile (gecko).
- I like "Landlocked Galaxy" as the image for the Fountain Basin Art Project.
- Prefer Landlocked Galaxy- colors are softer & more abstract- preserves granite ledge (Do not tile ledge as done on "Family Life Design).
- I vote for the "Landlocked Galaxy". The plain outside rim allows gentle transition & highlights the interior design. Also, for a fountain, this design is complementary, not overdone. Thank you!
- I like Bonnie Fitzgerald's work.
- This is really beautiful- good job on design and coloration.
- I think this is a good idea for Rockville, Maryland and you are making this area good.
- I suppose both mosaics represent Rockville Town Center Diversity
- I had a nice time here. Evan, Adam H., Ryan, Alex, Eshaaw, Adam B. Adina Tigers Den 6 and Den 1 Pack 1753 Fallsmead ES PS can we come here again
- I'm tired.
